<p>PPM 230-20. V. D - Limitation on Total Period of Service</p> <p>1. Computation of Years of Service Prior to Appointment</p> <p>The following rules of computation must be observed when calculating years of service at another UC campus:</p> <p>a. For purposes of calculating service toward the eight-year limit, service on any campus of the University of California counts. "On any campus" means "anywhere in the University system."</p> <p>b. All years of service on any campus of the University of California are counted. If there is any break in service, whether because of leave without salary or because of resignation and subsequent reappointment, service prior to the interruption counts toward the eight-year limit. For example, if an individual who previously served as an Assistant Professor on one campus is appointed as an Assistant Professor on another campus after a break in service, all previous years of service count toward the eight-year limit.</p> <p>c. Years of service are calculated from the beginning of the first complete semester or quarter of service.</p> <p>d. For an academic-year appointee, eight years will consist of 16 complete semesters or, under the quarter system, 24 complete quarters, or a combination of these, with one semester equal to one and one-half quarters. However, no academic-year appointee may accrue more than three quarters of service credit in any one fiscal year toward the eight-year limit unless the fourth quarter was approved under an arrangement to provide compensatory time off and that year is immediately preceded or succeeded by a two-quarter year of service.</p> <p>e. For a fiscal-year appointee, eight years will consist of 96 months of completed service, inclusive of accrued vacation time.</p>	<p>APM 133-17 Computation of Years of Service</p> <p>The following rules of computation shall be observed for service by an appointee with any of the titles listed in APM -133-0-a:</p> <p>a. For an academic-year appointee, the eight-year period shall consist of sixteen complete semesters or, under the quarter system, twenty-four complete quarters, or a combination of these two with one semester equal to one and one-half quarters. However, no academic-year appointee shall accrue more than three quarters of service credit in any one fiscal year toward the eight-year period unless the fourth quarter was approved under an arrangement to provide compensatory time off and that year is immediately preceded or succeeded by a two-quarter year of service.</p> <p>c. For a fiscal-year appointee, the eight-year period shall consist of ninety-six months of completed service, inclusive of accrued vacation time.</p> <p>d. Complete semesters or quarters of service for an academic-year appointee and complete months of service for a fiscal-year appointee shall be counted regardless of the percentage of time of the appointment, except for those titles listed in APM -133-0-a requiring a stated minimum percent of full-time appointment.</p> <p>e. Any break in service, whether because of leave without salary or because of resignation and subsequent reappointment, does not invalidate the counting of service prior to the interruption.</p> <p>f. <p>8-The candidate’s success in obtaining research support, including support for graduate students, should be addressed. The role of the candidate on grants should be indicated (e.g., Principal Investigator, Co-Principal Investigator, or Co-Investigator, with the number of other investigators indicated). Evidence of successful grant funding may provide calibration of research impact and capacity for research training, and may be an <i>indicator</i> of research productivity or impact; however, grants are not required as a measure of productivity or impact. In large teams, the expectation of grant success should be moderated based on role in the team.</p> <p>9-For appointment at the Associate level or higher, independent academic and intellectual leadership in the field must be demonstrated. Although candidates must demonstrate independence from early-career mentors or advisors in order to be appointed at the Associate level, evidence is not restricted to independent research papers, other independent creative accomplishments, or garnering sole-P.I. grants, particularly if the candidate’s research or creative activity takes place in a large-scale, collaborative team. However, if a traditional demonstration of independence is absent, more substantial documentation is needed to explain and support the case that appointment at the Associate level is warranted. In such a case, letters from non-independent referees (e.g., research team members) may be provided in addition to the usual complement of independent letters. If the department chair is unable to evaluate the candidate’s research and other creative accomplishments, assistance should be obtained from someone within the department or University or from experts outside the University. A mere listing of publications is inadequate; the work must be analyzed with regard to its nature, quality, importance, and impact on its field. Department chairs in Health Sciences should make clear whether clinical case reports are merely historical or whether they contain new ideas or results.</p>		<p>The candidate’s success in obtaining research support, including support for graduate students, should be addressed. <p>3. Evidence of Teaching Effectiveness Formal student evaluations of undergraduate and graduate teaching at the candidate's previous institution should be included in the appointment file. In addition to such evaluations, other significant evidence of teaching effectiveness includes:</p> <p>a. All cases for advancement and promotion normally will include: (a) evaluations and comments solicited from students for most, if not all, courses taught since the candidate's last review; (b) a quarter-by-quarter or semester-by-semester enumeration of the number and types of courses and tutorials taught since the candidate's last review; (c) their level; (d) their enrollments; (e) the percentage of students represented by student course evaluations for each course; (f) brief explanations for abnormal course loads; (g) identification of any new courses taught or of old courses when there was substantial reorganization of approach or content; (h) notice of any awards or formal mentions for distinguished teaching; (i) when the faculty member under review wishes, a self-evaluation of his or her teaching; and (j) evaluation by other faculty members of teaching effectiveness. When any of the information specified in this paragraph is not provided, the department chair will include an explanation for that omission in the candidate's dossier. If such information is not included with the letter of recommendation and its absence is not adequately accounted for, it is the review committee chair's responsibility to request it through the Chancellor.</p>	<p>PPM 230-210-1.d.(1) Teaching PPM unnecessary; rely upon APM 210-1. d. <p>D. _____ University and Public Service</p> <p>Academic appointees play an important role in the administration of the University and in the formulation of its policies. Consideration should therefore be given to whether candidates are likely to participate effectively and imaginatively in faculty government, University committees, and the formulation of departmental, college, divisional, school, and University policies. <u>The departmental recommendation should include a description of the type of service that will be expected of the candidate.</u></p> <p>University and/or public service will be a criterion for future advancement for appointees in the following series: Professor, Professor in Residence, Professor of Clinical X (e.g., Radiology), Adjunct Professor, Health Sciences Clinical Professor, Lecturer with Security of Employment (SOE), Professional Research (Research Scientist), Specialist, Academic Administrator/Coordinator, Librarian, and Continuing Education Specialist/Program Coordinator.</p> <p>Previous service at the community, state, and national levels should be examined in more senior appointments. Such service may be in the candidate's area of expertise, or in other areas if the work done is at a sufficiently high level and of sufficiently high quality. Examples of the latter would be activities related to the improvement of elementary and secondary education; contributions to student welfare through service on student-faculty committees or as an advisor to student organizations; and appointment or election to office in a professional organization, on a professional publication, or within a community, state, national, or international organization where professional standing has been a prime consideration in such appointment.</p>	<p>APM 210-1.d(4) University and Public Service</p> <p>The faculty plays an important role in the administration of the University and in the formulation of its policies. Recognition should therefore be given to scholars who prove themselves to be able administrators and who participate effectively and imaginatively in faculty government and the formulation of departmental, college, and University policies. Services by members of the faculty to the community, State, and nation, both in their special capacities as scholars and in areas beyond those special capacities when the work done is at a sufficiently high level and of sufficiently high quality, should likewise be recognized as evidence for promotion. Faculty service activities related to the improvement of elementary and secondary education represent one example of this kind of service. Similarly, contributions to student welfare through service on student-faculty committees and as advisers to student organizations should be recognized as evidence, as should contributions furthering diversity and equal opportunity within the University through participation in such activities as recruitment, retention, and mentoring of scholars and students.</p>	<p>PPM 230-210-1.d.(1) University and Public Service</p> <p>PPM unnecessary; rely upon APM 210-1. d. <p>Appointment is normally for full-time service to the University, although there may subsequently be a temporary reduction in the percentage of time of the appointment by agreement between the candidate and the University.</p> <p>An appointment for less than full-time service in a title in this series may be authorized under appropriate circumstances, provided that the Executive Vice Chancellor for Academic Affairs approves the arrangement as being in the best interests of the University and fully justified by the particular circumstances. The appropriate dean’s office should be consulted when considering a part-time appointment to this series.</p>	<p>APM 220-10 - Criteria</p> <p>...Appointment to a part-time position with a title in this series shall require the same qualifications as for a full-time appointment, provided, however, that in the case of an appointment on either a full-time or part-time basis of one who has previously served elsewhere as a faculty member on a part-time basis, the principles expressed in the following paragraph shall apply in evaluating the candidate.</p> <p>Advancement of a part-time appointee with a title in this series shall depend on quality of performance at a level of distinction comparable to that demanded of a full-time appointee, although, when circumstances warrant, a lesser rate of scholarly accomplishment or an extended time frame for review will be acceptable. For appointees at the Assistant level, the eight-year limitation of service (APM - 133) still applies. Teaching assignments and departmental, committee, and other service are to be kept in proportion to the percentage of time of the assignment, but the same quality of performance is expected as for a full-time appointee. The use of State funds in this case does not involve any commitment of tenure or security of employment. The State money is a temporary funding source for one year or less, and may be renewed. The Chancellor shall notify appointees on State funds of the above conditions and restrictions. (2) Limits on State funding for campuses not covered by (1) above. On campuses not covered by (1) above, 50 percent or more of the base salary of the appointee shall come from funds other than General (State) funds, except that the Chancellor is authorized, under justifying circumstances, to fund more than 50 percent of the base salary from General (State) funds for a limited period of time. When an appointment in any title in this series is supported by General (State) funds for more than 50 percent time (0.5 FTE), the total period of such appointment, in combination with any other State funded appointments in those titles specified in APM - 133-0-b and -c, shall not exceed eight years. In other words, there is a cumulative eight-year limit on State funding on these particular campuses for an individual who holds any title or titles in this series, i.e., Assistant, Associate, and Full Professor of Clinical (e.g., Medicine).</p>

<p>a. Definition Appointees in the Academic Coordinator series administer academic programs that provide service closely related to the teaching or research mission of the University. This service may be provided to academic departments, to students, or to the general public. The Academic Coordinator series may also be used for appointees who administer academic programs that:</p> <ul style="list-style-type: none"> • provide service to the campus related to credentialing programs—for example, serving as a liaison between a department and its professional development schools or districts; or • are academically based public service programs with outreach responsibilities in the areas of K-12 teacher or curriculum development in such areas as science and health education, language and writing projects, and the arts. <p>The duties of an Academic Coordinator are primarily administrative. Individuals in Academic Coordinator titles who are assigned research or instructional duties are required to hold dual appointments. However, an Academic Coordinator may conduct occasional non-credit seminars or workshops without holding a faculty title. An Academic Coordinator who also supervises candidates for teaching credentials must hold an appropriate faculty title as a dual appointment. While the program overseen by an Academic Coordinator need not be departmentally based, the program must be fundamentally academic in nature, involving University research activities or activities requiring judgments relating to University instruction. Present PPM 230-20. VII. E.1 – Special Status Titles/Acting Titles	APM 235– Acting Appointments	Proposed PPM 230-235 – Acting Appointments
<p>1. Acting Titles a. Definition The Acting prefix is used for either probationary appointments or conditional appointments. The Acting prefix may be used only in the Professor (Ladder-Rank) series.</p> <p>i. A probationary appointment in an Acting title is appropriate when a department or the appointing authority has reservations about recommending an individual for a regular professorship and wishes to observe the appointee's teaching or research for a one- or two-year probationary period. If the expressed doubts are removed, the person will be “regularized”—that is, proposed for a regular professorship—at the end of the probationary period.</p> <p>ii. An Acting title in the Ladder-Rank series can be used for an individual who does not have an appropriate visa, or when an academic condition that would justify a regular Ladder-Rank appointment is lacking—i.e., the terminal degree of the field, such as the Ph.D. A conditional appointment is made with the intention of converting the Acting title to a regular title when the candidate acquires the requisite academic or immigration credential.</p> <p>iii. When the Acting prefix is used to indicate the lack of the Ph.D. for an Assistant Professor candidate whom the department intends to transfer to the regular ranks Assistant Professor title, the appointment file proposing the Acting title must indicate clearly the department’s recommendation regarding regularization. A change to a regular appointment may be made upon receipt of official certification that an appointee has completed all formal degree requirements.</p>	<p>APM 235-4 Definitions</p> <p>a. The “Acting” prefix will be accorded only to a person on a temporary appointment. The prefix thus will signify the conditional, probationary, or emergency status of the appointment, as well as the privilege and responsibility of conducting research, and will often be applied to a person under consideration for appointment to a regular professorial title.</p> <p>b. This prefix may properly be attached to the Assistant Professor, Associate Professor, and Professor ranks of the professorial series. The prefix is not used at the Instructor level, except for graduate student Acting Instructors, who are not part of the professorial series.</p> <p>c. A highly promising Assistant Professor may be advanced to the title of Acting Associate Professor in those instances in which it has been determined that the appointee is not yet qualified for tenure status but should be compensated at a rate above the Assistant Professor scale. Such advancement requires review by the campus Committee on Academic Personnel and should occur only in the most exceptional cases. An Acting Associate Professor appointed under this provision retains all privileges to which the appointee was entitled as an Assistant Professor.</p>	<p>PPM 230-235-4 - Definitions</p> <p>a. <p>2. Visiting Titles</p> <p>a. Definition</p> <p>The Visiting prefix is used to designate one who is appointed temporarily to perform the duties of the title to which the prefix is attached. It may be assigned to an established scholar with a permanent position at another university, college, or public or private research laboratory.</p> <p>An appointment as a Visiting Research or Project Scientist may be made for an established scholar (as defined above) who is engaged in a UC San Diego research program and who has no teaching responsibilities. Such appointments normally are made at the same rank and salary as the home institution appointment, for a period of up to one year.</p> <p>The Visiting prefix may be attached to titles in the Professor (Ladder Rank), Research Scientist, Project Scientist, and Librarian series.</p>	<p>APM 230-4 - Definition and Policy</p> <p>a. The Visiting prefix is used to designate one who:</p> <p>(1) is appointed temporarily to perform the duties of the title to which the prefix is attached; and</p> <p>(2) either has held, is on leave from, or is retired from an academic or research position at another educational institution, or, alternatively, whose research, creative activities or professional achievement makes a Visiting appointment appropriate. In the latter cases, the Chancellor must solicit advice on the appointment from the Divisional Committee on Academic Personnel or its equivalent.</p> <p>b. The Visiting prefix may be attached to titles in any of the following series: Professor, Astronomer, Agronomist in the Agricultural Experiment Station, Professional Research, Specialist in Cooperative Extension, Project Scientist, and Librarian; except that the Visiting prefix shall not be attached to the title Instructor, Junior Astronomer, or Junior Agronomist.</p> <p>c. When a title with the Visiting prefix is assigned to a faculty member on leave or retired from another educational institution, the title will usually be the same as the individual's title at the home educational institution, with exceptions when connotations differ (e.g., Reader or Tutor in a British university).</p> <p>d. If an academic appointee with a Visiting title is later considered for transfer to a corresponding appointment in the regular series, the proposal for such transfer shall be treated as a new appointment subject to full customary review.</p>	<p>PPM 230-230-4 - Definition and Policy</p> <p>PPM Unnecessary; rely upon APM 235-4.</p>
