SUMMER SALARY

Summer Salary for research requires a concurrent position/job in the appropriate Research-1/9th job code as noted below. The FTE field will record the percentage of pay for summer salary and will need to be updated via PayPath each month if the total effort changes. All salary components will need to be listed (e.g. UCANNL or UCABVE, UCOFF1 (if applicable), UCDEC5 (if applicable), UCGCY). JED will need to be created based on the total compensation amount (all comp rates added together and divided by 9) and earn code ACR. The summer research job must be put on short work break (SWB) at the end of the summer research payment period applicable to each individual (e.g. if summer research payments end 8/31, SWB would begin 9/1). Funding for summer salary will be entered on MCOP Salary Worksheet in UCPath. NIH caps and cap gaps are recorded in the MCOP Salary Worksheet, not on the Job.

Summer Session teaching payments will be issued as a flat-rate amount on the normal professorial job. Summer Session payments are based on the regular professorial rate (not GCCP rate) in effect on 6/30

Administrative summer salary will be issued as a flat-rate amount on the faculty administrator job (e.g Department Chair). The payment must be based on the regular professorial rate (not the GCCP rate).
