

Review Criteria – Project Scientist Series

Criteria for advancement and reappointment in this series are demonstrated significant, original contributions to a research project or creative program. Appointees in this series need not demonstrate the same leadership ability, independence, or scholarly breadth as members of the Research Scientist or Professor series. University and public service are encouraged but not required.

At the time of academic review, the Project Scientist's supervisor (normally the principal investigator) should evaluate the Project Scientist and submit his or her written evaluation and recommendation to the department chair.
