

Review Criteria – Research Scientist Series

The performance criteria for the Professional Research (Research Scientist) series (hereafter referred to as the Research Scientist series) are the same as for the Professor (Ladder-Rank) series in the area of research and creative activity. The appointee must be continuously and effectively engaged in independent research and creative activity of high quality and significance, equivalent to that expected of the Professor series.

Associate and Full Research Scientists are expected to engage in University and/or professional service, such as service on research review boards. Assistant Research Scientists are not required to participate in service activities.
