

Department of Astronomy & Astrophysics

UC San Diego

Non-Senate Faculty WORKLOAD POLICY

In the Department of Astronomy & Astrophysics, UC San Diego, instructional workload credit (IWC) and appointment percentages are derived directly from the academic units assigned to a course, unless otherwise noted. A 4-unit course is considered the standard basis for the IWC and level of efforts calculations:

4-units = 1.0 IWC (standard course)

2-units = 0.5 IWC

1-unit = 0.25 IWC

The percentage of effort for an appointment is determined by the total IWC and applies standard rounding rules to the nearest full percent of effort. The following examples illustrate this practice:

9 courses per year = 100% for the year

3 courses in a quarter = 100% for that quarter

Exceptions: a. Large enrollment courses (>200) would count as 1.5 IWC (50%)

Employed for the Full Academic Year (9/12 basis, payroll July 1 to June 30)

X number of 4-unit courses = $X/9 * 100\%$ for the year

9 courses per academic year = 100% time (maximum) for the academic year

6 courses per academic year = 67% time for the academic year

3 courses per academic year = 33% time for the academic year

Employed for Two Quarters (9/9 basis, payroll follows fiscal quarters)

X number of 4-unit courses total for 2 quarters = $X/6 * 100\%$ for six months

6 courses over two quarters = 100% (maximum) per quarter

4 courses over two quarters = 67% per quarter

2 courses over two quarters = 33% per quarter

Employed for One Quarter (9/9 basis, payroll follows fiscal quarters)

X number of 4-unit courses total for 1 quarter = $X/3 * 100\%$ for three months

3 courses over one quarter = 100% (maximum) per quarter

2 courses over one quarter = 67% per quarter

1 course over one quarter = 33% per quarter
